Welcome to the Nobel Prize Museum! Here you can get to know about Alfred Nobel and the Nobel Prize. Use the map to explore the museum's exhibitions and to complete the tasks below.

The Alfred Nobel Room

In this room, you can learn more about Swedish inventor and industrialist Alfred Nobel (1833-1896). He was a person with many interests. Read the texts in the room and then locate these two objects. In just a few words — what do you think they tell us about Alfred Nobel's life and work?

The Nobel Prize over the years

A. A mould that leads to a cure

In the middle of the museum there is a timeline that tells about the history of the Nobel Prize and the achievements of the laureates. Look at the objects shown in the display cases there, and try to find the Nobel Prize that fits the following headings:

Object:	Prize category:	Year:
B. Light, strong and fo	ormable	
Object:	Prize category:	Year:
C. A symbol for getting help in distress		
Object:	Prize category:	Year:
D. A book about a	boy who befriends	animals
Object:	Prize category:	Year:
E. Portable sounds – a	a new opportunity!

Object: ______ Prize category: ______ Year: _____ become the Nobel Prize.

F. Borderless trade

Object: _____ Year: ____

The Film Room

Here you can watch videos about Nobel Prize laureates and their creative work. All people have various qualities that are important to creativity. Here are some of these qualities:

knowledgeable thorough inquisitive competitive courageous careful goal-oriented visionary persistent chaotic stubborn questioning

Watch a video about a Nobel Prize laureate. Circle the above-mentioned qualities that are applicable to this laureate and his/her creative work.

Nobel Prize laureate: ______ Prize category: _____

Look up in the ceiling of the Museum! Who do you think going around up there?

The Gallery

The objects in this part of the museum come from the laureates themselves. Select two of the objects shown here to the right. Find these objects in the exhibition, read about them on the touchscreen and explain to a classmate:

Which laureates did the objects belong to?

What does each object tell us about the laureate's work? _______

Temporary exhibition: The Nobel Prize banquet – behind the scenes

This exhibition is about the banquet that is held in Stockholm December 10th, to honour the year's laureates. It gives you a picture of how this gala event is planned and carried out, including a peek behind the scenes.

- Find May-Britt Moser's dress and read the text. How do you think it would affect your everyday life if your own inner GPS stopped working?
- Walk around the exhibition and find three facts in three different fields that you think makes the Nobel Prize banquet a unique celebration.

May-Britt Moser's dress. She received the 2014 Nobel Prize in Physiology or Medicine.
